

Agriculture

Hawsons has a dedicated team of specialist agriculture accountants in Sheffield, Doncaster and Northampton.

We know that farming isn't just a business; it's a way of life.

The rural and agriculture sector is a specialist sector, with unique practices and conventions, and we act for a significant number of arable farms and assist farming families in many matters specific to the sector including will planning, succession planning and dealing with the complex tax issues surrounding inheritance.

We have been able to assist our farming clients in adding value to their businesses including advising on the financial and taxation consequences of property development, green technologies and capital allowance planning. In particular, we can assist in the area of capital taxes planning which is a significant issue for most farmers following the increase in land values and the availability of development opportunities.
